

RENTAL

If the circles were one of the topics which companies from all over Europe were acquiring information about for many years, we can currently see a very interesting development within the (medium) pre rig trusses and heavier ground support systems area.

We have anticipated this development and therefore made a decision to make some considerable investments in this area. We have currently included more than 1800 running meters on the P50SL, P60R and P100R truss in our rental stock. Plus plenty of box corners, book corners and accessories are now available for rent from us too. The 1 ton, 2 ton and 5 ton towers are also available for rent. We can currently supply 16 complete Towers 1000, 20 complete Towers 2000 and 12 Towers 5000.

Would you like to find out more? Call or email us.
